Teaching/Pedagogy: When faculty engage in the scholarship of teaching practice through peer-reviewed activities to improve pedagogy.	Integration: When faculty use their professional expertise to connect, integrate, and synthesize knowledge.	Application: When faculty use their professional expertise to engage in applied research, consultation, technical assistance, policy analysis, program evaluation, or similar activities to solve problems.
Examples of documentation in this discipline	<ul style="list-style-type: none"> completed film/video & animation (or perhaps evidence of development of project). screenplay (treatment, outline) other art: multimedia, painting, acting, music other (creative) writing: fiction, poetry, personal essay 	<ul style="list-style-type: none"> paper / article on pedagogy instructional workshops of peers: participant or teacher (literature, curriculum) participation in RIT Office of Faculty teaching/learning efforts. 	<ul style="list-style-type: none"> essay / article (on film/ script/animation study) textbook: write or contribution chairing group presentation (conference literature, letter of invitation) textbook reviews and editing festival program participating in software training to be able to teach and use those tools 	<ul style="list-style-type: none"> proposal/grant (for aspect of "enhanced learning") professional work in field (Contract and freelance work) Presentations, speeches and film introductions editors/writers in Professional journals production of educational film/video
Examples of dissemination in this discipline	<ul style="list-style-type: none"> film festival contributor broadcast or web delivery distribution: DVD's, prints screenplay reading or production publication (i.e. screenplay digest) screenwriting competition other: galleries, universities, performance, show, public view 	<ul style="list-style-type: none"> paper reading or presentation (conference) publication (journal) teaching workshops on pedagogy and best practice on-line 	<ul style="list-style-type: none"> panel presentation (conference, exposition) delivered paper publication (journal or text) festival participation (Q&A, panel discussion) incorporating knowledge of software tools into curriculum 	<ul style="list-style-type: none"> application of prescribed research or method (see above description) broadcast and distribution of work done under contract contributions disseminated in methods listed in <i>Discovery</i>.
Examples of peer review in this discipline	<ul style="list-style-type: none"> film festival judging and/or award (selective festival) screenplay review (peer group) film & web critique one person show/retrospective Press reviews, Radio/TV/Web interviews 	<ul style="list-style-type: none"> editorial / critique of paper refereed publication w/ notes evaluations of instruction from peers chair's evaluation 	<ul style="list-style-type: none"> editorial / critique of paper evaluation by outside faculty panel chair evaluation prestige of publisher (indicates critical review) Peers using the faculty as a knowledge resource for software tools 	<ul style="list-style-type: none"> critical assessment of applied work as stated (chair or faculty) work assessed by project leader Participation in professional organizations (i.e. setting academic standards)

CIAS Evaluation of Scholarship
School of Media Sciences

	Discovery: When faculty use their professional expertise to discover knowledge, invent, or create original material.	Teaching/Pedagogy: When faculty engage in the scholarship of teaching practice through peer-reviewed activities to improve pedagogy.	Integration: When faculty use their professional expertise to connect, integrate, and synthesize knowledge.	Application: When faculty use their professional expertise to engage in applied research, consultation, technical assistance, policy analysis, program evaluation, or similar activities to solve problems.
Examples of documentation in this discipline	Development of image tests, performance evaluations, measurement methodologies, patents, software and apps.	New course development for emerging courses that we are developing in response to changing market conditions.	Interdisciplinary research papers that involve the integration of other sciences (color, material, computer, etc.) and business for industry publications and journals.	Industry-relevant studies individually developed and implemented including primary research, workflow methodologies and applications vetted through peer reviewed organizations and company sponsorship.
Examples of dissemination in this discipline	Lab research and field research developed with presentation of findings at academic conferences, industry associations and individual enterprises.	Course content vetted at industry conferences and with relevant alumni, and with relevant educational groups such as GCEA and GAERF.	Targeted research that is centered on media sciences and presented at industry conferences such as TAGA, IARAGAI, GraphExpo, and International Circle of Educational Institutes.	Presentations at industry conferences including TAGA, IARAGAI, GraphExpo, and International Circle of Educational Institutes or acceptance by sponsored companies.
Examples of peer review in this discipline	Accredited peer review conferences germane to the graphic communications industry, including TAGA, IARAGAI, International Circle of Educational Institutes.	GCEA conference presentation and publishing in Visual Communications Journal and with industry contacts for real-world experience and relevancy.	Acceptance at relevant conferences and subsequent publishing in proceedings, feedback from industry associations.	Sponsoring companies and peer-reviewed process provides feedback based on specific requirements for acceptance and relevance.

	Discovery: When faculty use their professional expertise to discover knowledge, invent, or create original material.	Teaching/Pedagogy: When faculty engage in the scholarship of teaching practice through peer-reviewed activities to improve pedagogy.	Integration: When faculty use their professional expertise to connect, integrate, and synthesize knowledge.	Application: When faculty use their professional expertise to engage in applied research, consultation, technical assistance, policy analysis, program evaluation, or similar activities to solve problems.
