

Special Permission for the Re-Submission of a Technically Flawed Film for Screenings

Student name _____

Title of Film _____

Class Name _____

Class Number _____

Note on Policy:

Refer to SOFA Screenings Policy 9.0 for full detail on technical amnesty guidelines for screenings submissions:

Technical amnesty is permitted for students who have uploaded a file prior to the Technical Amnesty deadline but subsequently note technical issues with the file. The legitimate technical issue must be fully explained and this form must be signed by David Long, screenings adviser. An agreement on appropriate time needed to resolve the technical issue in question will be made between FVASA, David and the student. FVASA will confirm that replacement media submitted by the student correct the technical error originally claimed and nothing more. This policy applies only to students who have submitted at least one version of their film by the amnesty deadline. Originally late submissions due to technical error must be petitioned for approval through the SOFA school director (SOFA Screenings Policy 7.0).

Signature of Screenings Adviser, David Long
